

# Vertical Cable Management Duct

## Application

The Vertical Cable Management Duct kit is used for organizing power and patch cables. This cable manager is constructed from plastic and comes in 4 different sizes. The kit can come in either 5" or 8" channels with the option of having a single channel or a front and rear (double) channel. The Cable Management Duct can be mounted at the end of a row or between two racks with the a duct bracket set and includes black hinged covers. The channel contains cable pass through and optional accessories for even more effective cable management.

185-4631
